Nationwide Drayage and Trucking

Customized logistics solutions for leading import/export companies.

California Cartage Company's transportation divisions deliver a complete menu of drayage and trucking services nationwide.

We are able to adjust our priorities minute by minute and have one destination in mind: uninterrupted deliveries made with a value-driven efficiency. Whether your shipment is headed for one of our warehouses, your store's receiving dock or even into Mexico, we promise time-conscious, cost-friendly service management of a highly capable trucking fleet.

California Cartage Company has delivered customized logistics solutions for North America's leading import and export companies, as well as top-named retailers.

- Deliveries of containers to all our facilities.
- Provide store-door trucking services.
- Sophisticated Transportation Management System (TMS) ensures real-time visibility
- Dispatch system minimizes dock storage, demurrage and detention issues.
- Intermodal pickup and delivery to various rail ramps and customer destination or origins.
- Manage pickups of empties and loads at ramps, customer load/unload time and return of equipment to ramps.
- Large fleet of closed van equipment moves truckload or LTL shipments.
- Drop-deck and lowboy trailers move freight within the area supported by our transload facilities.
- Specializing in moves of heavy 20-ft containers to and from the port.
- Versed in pulling permits to move extra heavy 40-ft containers within the Overweight Corridor using our tri-axle chassis and 4-axle tractors.

Location

- We have trucking locations in most premier port locations

Commitment

- Our customer commitment is our top priority
Owner Operators

Owner Operators

- In every location, drivers are independent owner operators, not employee drivers

TRUCKING SOLUTIONS

count on us...

Green Trucks

Going green with CLEAN TRUCKS: Partnering with industry and community to build a sustainable supply chain for the future.

In 2006, a sweeping environmental legislation was passed by the Port of Los Angeles and Long Beach, the 1st in the nation, that required a 50% reduction in pollution related to the port industry within 5 years. In response to this, California Cartage Company has spear-headed a revolutionary lease-to-own program of clean trucks, leading the community and industry call to action for cleaner air.

As a result, we can now boast of maintaining the largest fleet of clean trucks in the entire region. California Cartage currently operates over 650 clean trucks, clean diesel and liquid natural gas (LNG).

As other ports throughout the United States begin to follow suit with similar initiatives, California Cartage Company is poised and ready to support them and maintain our reputation as an industry leader in this regard and all others.

SPECIALIZED EQUIPMENT

It's no surprise that the largest fleet of specialized equipment in the country belongs to California Cartage Company! From the ports to the rail to the open road, we can make light work of the lifting, handling and transporting of your over-dimensional loads. Whether it's lumber, delicate electronic equipment, heavy steel coils, automobiles or mobile missile launchers, we've got what it takes to move cargo safely and securely.
